PVO-Vesivoima and Caverion continue their partnership at hydropower plants in Finland

Finnish energy company PVO-Vesivoima Oy and Caverion continue their partnership. Caverion will continue to be responsible for the operation and maintenance of PVO-Vesivoima's hydropower plants on the Iijoki and Kemijoki rivers and Melo hydropower plant on the Kokemäenjoki river.

Caverion aims to develop service and maintenance activities together with PVO-Vesivoima. The goal of continuous development is to ensure sufficient hydropower expertise for the future as well as cost-efficiency, risk management and reliability of the plants.

"We expect our operation and maintenance partners to commit to common goals. We have received a high-quality service from Caverion, which perfectly contributes to the reliability of the power plants," says **Jani Pulli**, Managing Director, PVO-Vesivoima.

"Over the years, we have grown in this partnership, and our development work is part of our day-to-day operations. Open and purposeful cooperation allows for continuous improvement and the development of the latest maintenance solutions," tells **Elina Engman**, Head of Caverion Industry.

Caverion's partnership with PVO-Vesivoima Oy started in 2013.
