### Possible bribery during 2009-2011 identified in Caverion's project in Germany

As informed previously Caverion actively co-operates with authorities in the investigation of violations of competition law related regulations in the technical services industry in Germany. Caverion has brought its findings to the knowledge of the authorities and supports them to further investigate the case.

It is possible that these infringements will cause considerable damage to Caverion in terms of fines, civil claims as well as legal expenses. However, the magnitude of the potential damage cannot be assessed at the moment. Caverion is monitoring the situation and will disclose any relevant information as applicable under regulations.
